

Chester County Library 2022 Summer Reading Program 4th Annual LEGO Creation Competition

Enter Our Oceans of Possibilities LEGO Creation Contest!

This year, the Summer Reading Program Theme is "Oceans of Possibilities." Through the summer we will learn about different aspects of the ocean, ocean animals, and ocean habitats. This is our fourth annual LEGO creation contest. Entries may be animals, animal habitats (think of a underwater scene, coral reef, etc), etc.! Any submissions must be made of LEGOS bricks and must be original work by the entrant. Remember, you get more points if you do not use a kit. Need ideas? The library has several great LEGO creation animal books available for checkout!

Entries should be submitted no later than July 1, 2022. The entries will be divided between entering preschool through first grade, entering grades second through fifth, entering grades sixth through eighth, and entering grades ninth through twelfth. First, second, and third prize as well as crowd favorites voted on by library visitors will be awarded at our awards day on July 27, 2022 as an all day event.

The LEGO creations will be displayed in the library from date of submission through July 27, 2022. Participants need to fill out the below registration form and submit it along with their creation! Please complete the below portion **and** the submission tag when you submit your LEGO creation.
