

Chester County Library 2023 Summer Reading Program 5th Annual LEGO Creation Competition

Enter Our All Together Now LEGO Creation Contest!

This year, the Summer Reading Program Theme is "All Together Now." Through the summer, we will be partnering with different groups in the community and learning about teamwork. This is our fifth annual LEGO creation contest. We encourage submissions showing teamwork of any kind or an original "art" piece! Any submissions must be made of LEGOS bricks and must be original work by the entrant. Remember, you get more points if you do not use a kit. Need ideas? The library has several great LEGO creation books available for checkout!

Entries should be submitted no later than July 3, 2023. The entries will be divided between entering preschool through first grade, entering grades second through fifth, entering grades sixth through eighth, and entering grades ninth through twelfth. First, second, and third prize as well as crowd favorites voted on by library visitors will be awarded at our awards day on July 26, 2023 as an all day event.

The LEGO creations will be displayed in the library from date of submission through July 26, 2023. Participants need to fill out the below registration form and submit it along with their creation! Please complete the below portion **and** the submission tag when you submit your LEGO creation.
